

INFO FOR PRACTICE RALLIES:

Now you can do it at home (or when you arrive at the New World Inn):

1. Open the “Richta Competitor” APP on your phone and from the list of events touch (or ‘chose’) either the “short” or “long” rally (depends on which you want to run).
2. Type in the password: **seca**. Include the other info if you want.
3. THIS TIME YOU CAN USE YOUR ACTUAL CAR NUMBER (see entry list).
‘Practice Short’ is just for confirming that you and your phone understand what will happen when you pass controls.
‘Practice Long’ has 4 different types of Regularity Sections which further show you what to expect on WC.
4. You have now ‘registered’ and are now ready to go.

Here’s my idea of what will happen when you arrive at Inn:

If your phone is showing the APP and the Practice Rally you plan to run, when you drive in to the New World Inn, your phone will ‘see’ you in the driveway, will ‘ringy-dingy’ and show that you have arrived at CP1. (This means your phone has connected to Richta correctly).

If you have NOT registered for one of the rallies before you get to the New World Inn, while inside the Inn (or nearby), follow the info above (numbers 1, 2 and 3) to register for one of the Practice rallies. Now walk down the front driveway; you’ll get a ‘ringy-dingy’ and your phone will show that you have arrived at CP1. (This means your phone has connected to Richta correctly. **IF YOU DON’T, SOMETHING’S WRONG AND YOUR TIMES WON’T GET RECORDED.**)

There are two types of Restarts used on these Practice rallies: Time-of-day car zero time (CZT) restarts and Flying Start Truncate Restarts (the latter is a suggestion from a couple of competitors).

CZT restarts give you a time of day to which you add your car number in minutes to find your specific starting time. For example: If the route instructions say “Restart here at CZT 10:50am” and you are car #13, your starting time at that point is 11:03:00. The Richta Competitor app will show your proper starting time (In this example it would display 11:03:00. It has added your car number to the CZT). **THESE ARE WHAT ARE USED AT THE WINTER CHALLENGE RALLY.**

Flying Start Truncate restarts work differently. You get to restart when you’re ready, not at some predetermined time. You pull up to the sign at the restart point as specified in the route instructions.

Example of route instructions:

CP 3- Church Hill; Flying Start Truncate; “35” (or similar)

If there is a line of cars ahead of you waiting at this restart sign (in this example the “35” sign), get in line. One by one, the cars ahead of you will leave the restart point (the sign). When it’s finally your turn (no one ahead of you), pull up to the restart sign and zero your trip odometer. At the beginning of the next minute (do not leave early), take off and accelerate to the assigned average speed.

Approx. 100 yards later, the Richta app will say “restart” and display the time that you started. **You need to pass this 100 yard point within 25 seconds of the minute that you started at.** Whenever you actually start you should get a correct score at the Richta control points.

Starting at 12:30 pm, I will be at New World Inn to answer any questions about Richta or the Rally.

Whenever you want, it will only take 5 minutes or so to register for the actual Winter Challenge Rally – 2WD or 4WD. We’ll give you the password when you check in.

Practice Short

		Odo Check		CP 1 - Hollow Inn	15 min to next RS	
NRI	Distance Total	Interval Mileage	Information	Speed/Time	PERFECT time	
In this RS there are no timing controls.						
1	0.00		CP 1 (CZT) - Hollow Inn CAR 0: whenever Right out of parking lot onto main road			
2	0.21	0.21	Right. (Quarry)			
3	1.56	1.35	Left. (Websterville) Follow main road.			
4	2.102	0.54	"RXR". CP 2. TIMECHECK. Here your phone will record your passage and exact time. There is no score involved. You can note what time you pass here on your clock (watch) and compare it to the time that Richta (Official time) says you passed here.			
5	2.86	0.76	Left at "110""302". Follow main road.			
6	3.5	0.64	Hint: Don't take the small Teja Rd. You have been told to 'follow' the main road.			
7	3.951	0.45	"Stop". Right.			
8	4.44	0.49	CP 3 (CZT) "35"			

Short

	RS 1		CP 3 - Church Hill	8 min to next RS	
NRI	Distance Total	Tulip	Information	Speed/Time	Perfect time
In this RS there is 1 timing control at "25"					
1	0.00		CP 3 - Church Hill Flying start truncate "35". (BFZ for 0.3 mi)	CAS 32	
2	0.4				
3	1.119		"25". CP 4 (normally you would not see the fact that this is a CP).	CAS 25	
4			"Stop". BFZ.	Pause 6	
5	1.52		EFZ. (Robar)		3:11
6			"25". End Regularity timing.		
7	2.03		CP 5 (CZT) "Stop". Hint: You take the straightest road (to the left) here.		

Short

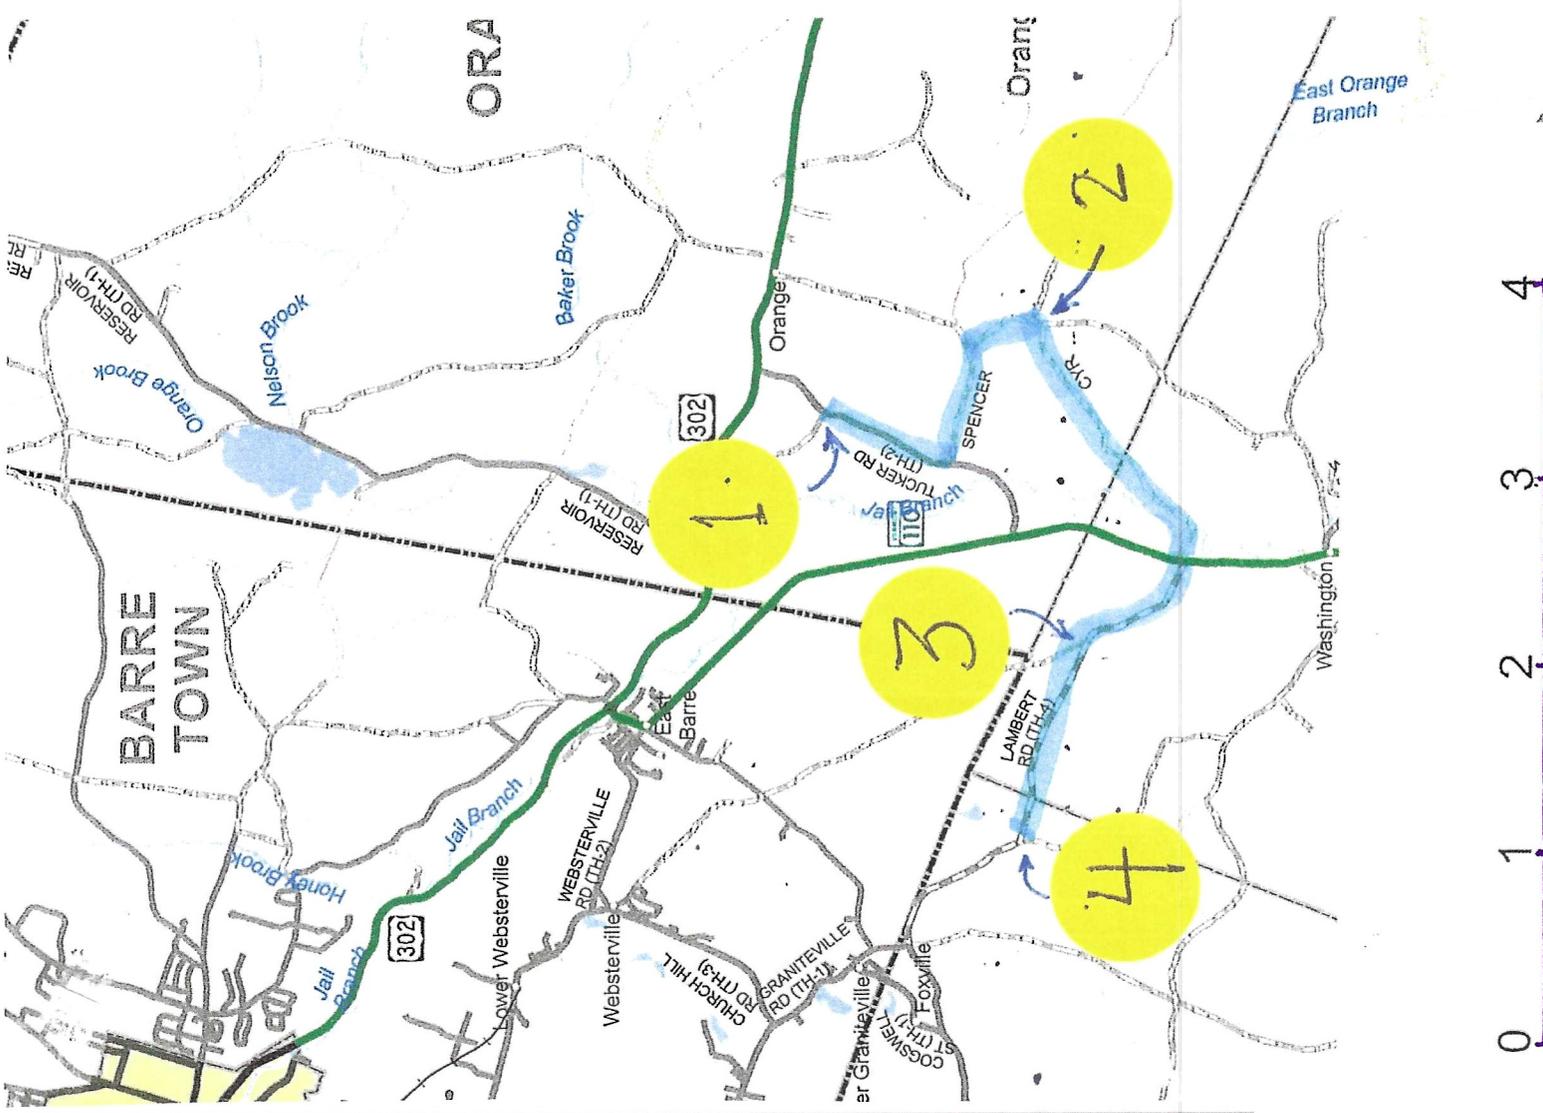

RS 2		CP 5 - S. Barre			(Est. 8 min to end)	
NR I	Distance Total	Interval Distance	Tulip	Information	Speed/Time	Perfect time
In this RS there are 2 Richta controls - 1 OFF COURSE and 1 at "Quarry House" (on left)						
1	0.00			CP 5 - S. Barre Flying start truncate "Stop". Follow main road.	CAS 32	
2	0.388			(Mosquitoville). (Hint: No instruction needed here. You keep left to "follow" the main road - as you were told in the last NRI).		
3	0.5			Hint: There is an OFF COURSE control straight ahead here - you should not see it.		0:59
4	1.083			CP 7. "Quarry House" (on left). (Normally you would not see this NRI that tells you exactly where the CP is located.)		
5	1.6			"25". End Regularity timing.		
6				"Stop".		
7	2.1			toward 89		
8	3.6	1.5		Right at crossroad. Rt 14.		
9	4.3	0.7		Right into New World Inn.		

Practice Long

Odo Check			CP 1 - Hollow Inn	15 min to next RS	
NRI	Distance Total	Interval Mileage	Information	Speed/Time	PERFECT time
			In this RS there are no timing controls.		
1	0.00		CP 1 (CZT) - Hollow Inn CAR 0: whenever Right out of parking lot onto main road		
2	0.21	0.21	Right. (Quarry)		
3	1.57	1.36	Left. (Websterville) Follow main road.		
4	2.103	0.53	"RXR". CP 2. TIMECHECK. Here your phone will record your passage and exact time. There is no score involved. You can note what time you pass here on your clock (watch) and compare it to the time that Richta (Official time) says you passed here.		
5	2.86	0.76	Left at "110""302". Follow main road.		
6	3.5	0.64	Hint: Don't take the small Teja Rd. You have been told to 'follow' the main road.		
7	3.952	0.45	"Stop". Left; then continue left at next "Stop". Mileage at first "Stop".		
8	4.0	0.07	Right on Carnes Rd. (small road)		
9	4.116	0.10	CP 3 "Yield". Odometer check. Left.		

Long

RS 1		CP 3 - East Barre			12 min to next RS	
NRI	Distance Total	Interval Distance	Tulip	Information	Speed/Time	PERFECT time
In this RS there is 1 Richta timing control at "35"						
1	0.00			CP 3 - East Barre Flying start truncate "Yield". Left. (BFZ for 0.2 mi)	CAS 30	
2	0.05	0.05		"Stop". BFZ	Pause 6 before NRI 4	
3	0.1	0.05		at traffic circle		
4				EFZ. Hint: Careful :)		
5	1.13			"Stagecoach"		
6	1.960	0.83		"Stop".	CAS 32	4:01
7	2.717	0.7		CP 4 at  . (Normally you would not see this NRI that tells you exactly where the CP is located.)		
8				"Stop". Left. End Regularity timing.		
9	3.9			Right (Tucker).		
10	4.38	0.48		CP 5 (CZT) "Helgesen".		

RS 2		CP 5 - Orange	15 min to next RS		
NRI	Mileage	Map Reference	Information	Perfect time	Speed/Time
MAP SECTION -					
From NRI 1 (here) to the end of this Regularity Section, follow the route drawn on the map. The indicated CP locations are the <u>only</u> places your time may be recorded. However, there will NOT be Official RICHTA timing done at each possible CP location. The numbers in yellow circles on the map correspond to the Map Reference numbers listed below; these are to assist you. If you follow the suggested speeds, your times at the CP locations will be within 2 seconds of the Official time. The times due are indicated for Car 0; you must just add your car number (and any TA you might have taken) to find <u>your</u> perfect time of arrival.					
1	0	1	CP 5 - Orange Flying start truncate "Helgesen".		Suggested average speed 32
2	1.35		Keep right on Emery		Pause 6
3	1.818	2	CP. Intersection of Emery and Cyr.	3:30	Suggested average speed 24
4			Left. (Hint: Then immediate right)		Suggested average speed 32
5	4.193	3	CP. "Lambert Rd" (at intersection)	9:00	
6	5.3	4	"Stop" CP 8		

RS 3		CP 8 - Foxville		(approx. 15 min to end)	
NRI	Distance Total	Compass	Information	Speed/Time	PERFECT time
In this RS there are 3 controls- 1 OFF COURSE, 1 at "Blind Drive" and 1 at "Quarry House". (mailbox on left).					
1	0.00	N	CP 8 - Foxville Flying start truncate " Stop". Right	CAS 32	
2	0.766		CP 9 at "Blind Drive". (Normally you would not see this NRI that tells you exactly where the CP is located.)		
3		W	"Stop".	CAS 25	
4	1.3	SW	"Stop". Follow main road	CAS 32	2:52
5	1.7		Keep Left. (Hint: No turning instruction needed here as you 'follow' the main road)		
6	1.92	N	Hint: There is an OFF COURSE (CP 10) control straight ahead here - you should not see it.)		
7	2.476		CP 11. "Quarry House" (on left) (Hint: Normally you would not see this NRI that tells you exactly where the CP is located.)		
8	3.2	N	"Stop". End Regularity timing		
9	3.5		Keep left toward 89.		
10	5.0		Right at crossroad on Rt 14 north		
11	5.7		Right onto New World Inn
